GetOnMobile.de is a self service tool for individual users to market their user generated content !!!

Get on mobile

GetOnMobile.de is a self service tool for individual users to market their user generated content. Registered users upload their content and receive unique Premium SMS short code handles enabling online and offline sales of videos and pictures.

Offer your customer the possibility to sell their videos and pictures not only in the internet but also at mobile phone users and to earn therewith money.

How it works?

Very simply! Your customers register themselves in order to arrange themselves an own Get on mobile area. The videos and pictures are with the member - profile connected receives and therefore every user receives its own individual download code. This can be applied on the homepage of the customer, in the chat or also in magazines or banner advertisement.

Get on mobile Platform

Actai provides herewith the Get on mobile Platform which the video and picture material can be appointed by the customer himself and can be retrieved about according to Download Codes per Premium SMS. The Get on mobile Platform delivers videos / pictures to the customer's mobile phone.

In addition the customer can manage, make modifications or delete its content over this platform. Furthermore the content name must be determined here and to which rate the videos / Pictures are supposed to be sold. The FSK details also must be carried out considering the regulations of the child and youth protection.

Content Upload

The Content Upload is very simple. The customer registers under his identification in the system and select the menu point „Video Upload“.

At the upload of the pictures, it behaves similarly to the video upload, with the difference that instead of one picture file, we need three files in different resolutions. This is because we want to transmit the pictures in as high quality as possible to the mobile phones, as different type of mobile phones have different display size.

Content verwalten		Content hochladen		Benutzerdaten		Ausloggen

ijju	●	82888	GET BAAGGG		€ 1,99	Ändern Löschen	

Get on mobile accepts the following formats for videos and pictures

● **Videos**

- AVI - Format
- Quicktime Movie - Format
- MPEG4 - Format
- Windows Media Player - Format

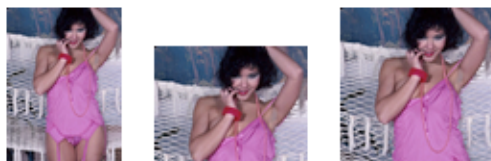

● **Bilder**

- JPEG - Format
- GIF - Format

Premium SMS Download

For the download of the videos and pictures the download code is sent to a Premium SMS speed calling. The customer receives then a few seconds later a download link per WAP Push on his mobile phone, over that the picture or the video can be downloaded. The download cost will be deducted over the mobile phone invoice

That means for your customer that he can apply the download codes on his homepage with some small instructions or can offer this also online for example in the

chat.

Actai takes the complete delivery on the mobile phone. We execute on mobile phone reconnaissance and deliver the pictures and videos optimally prepared for the mobile phone.

Pictures are scaled to the actual screen size of the mobile phones and at the videos the optimal video format is respectively delivered in the best resolution.

Tarifs and payouts

Get on mobile can offer for the sale of the videos and pictures for example the following two tariffs.

- 4,99 € for videos
- 1,99 for pictures

For every download the customer gets a credit note which is referred to him once a month after the payout by the mobile phone network operator.

For the sale via Premium SMS costs thereby incurred for SMS at the mobile phone operator, transaction and our overhead, therefore we can grant for example the following payout per download:

- 1,30 € per Download in the tariff 4,99
- 0,45 € per Download in the tariff 1,99

The least transfer boundary lies at 10 EUR, that means that we will transfer sums over 10 EUR to the customer's bank account.

Get on mobile on your Website

Get on mobile is integrated as a hosted service of Actai under the brand of the customer into the existing web appearance of the customer. In addition Actai delivers an extensive help system (FAQ 's) as well as the AGB to this Self service tool.
